1. Product overview

Seaory S series full-panel YMCKOK ribbon consist of yellow (Y), magenta (M) and cyan (C) panels for printing a full spectrum of colors by combining the colors using varying degrees of heat. The K panel is a black resin panel, typically used for printing text and barcodes and the O panel is a thin, clear protective overlay that is applied to the entire surface of your cards. Seaory S series full-panel YMCKOK ribbon is used for double-sided printing, YMC and the first K and O panels are used for printing on the front, and the second K panel is used for printing on the back of the card.This ribbon can only be used in Seaory S series card printers.To maximize print card quality and card printer durability, please use the Seaory original ribbon.

2. Main features

● **Durability and excellent print quality**

Print clear, bright images and text. In addition to the standard colors (Yellow, Magenta, Cyan and Black), YMCKO ribbons apply a protective varnish (O) that protects the card's printed elements. The film can be anti - oxidation discoloration, fading, waterproof, anti - fingerprint and other functions
